# WORKING WITH DATASET

Exploration Of Dataset:

Exploration of Data relationships among the values is presented along with plotting of Average Age for different Chest Pain Types. For visualizing it, we will require the following data:

* Sex

 * Age

 * Chest Pain Type.

 From this data, we will be plotting "Hrozontal Bar Chart" to present the average age of people experiencing the same type of chest pain.

CHEST PAIN TYPE BY AGE:

AVERAGE :20.9

CHEST PAIN TYPE BY SEX:

AVERAGE :428.5
